### PEACE + PEOPLE = POSSIBILITIES

**My name is Helena Pasquarella and I am running to be your representative in the 24th District.**

Our Government is not working for us, but instead for the Military Industrial Complex and corporate interests. While 75% of Democrats want a ceasefire in Gaza, Salud Carbajal continues to send millions dollars for the genocide in Gaza and around the world. We want our taxes to create peace at home with affordable housing, health care for all, quality education, jobs, and an end to gun violence in our communities. It would cost \$20 billion to end homelessness & \$25 billion to end hunger in the US. Instead, Carbajal votes to spend \$886 billion for war.
